

CAMS User Interface

Computer Account Management System for Pardo Elementary School
Administrator and Teacher portals, photographed from the running system

Sign In

The single front door for teachers and administrators. A student account entered here is refused and directed to the CAMS client on the workstation.

The screenshot displays the CAMS Portal sign-in interface. At the top, there is a circular logo with a school emblem. Below the logo, the text "CAMS Portal" is displayed, followed by "Pardo Elementary School - Cebu City". The main form area contains two input fields: "Username" with a placeholder "Your username or student number" and "Password" with a placeholder "Enter your password" and a toggle icon. Below these fields is a green "Sign In" button. At the bottom of the form, a note states "Use the account issued by your CAMS administrator." and a copyright notice "© 2026 CAMS - Computer Account Management System" is visible.

Figure C.1: Portal sign in

Administrator Portal

The administrator holds the school-wide view: the people on the system, the workstations in the laboratories, the policies that govern what may run, and the operations that keep the installation healthy. Every screen below was photographed from a running server against seeded records.

Whitelist & Blacklist Security Policies
Enforce website domain rules across all student workstations

Allow rules are the whitelist. More-specific allow rules override broader matching blocks, and nothing is blocked for being absent from these rules.

Application rules are kept here but are not enforced on workstations: CAMS does not close anything on the desktop. Application activity is still monitored, so teachers can see what was opened.

Total Rules: 2, Active Rules: 2, Inactive Rules: 0

Database Maintenance
Local SQLite health, online backups, and restart-safe recovery

Integrity: Healthy

Database File
Local path
C:\Users\jland\AppData\Local\Temp\cams-ui\CAMS-ui.db
Main file size
272 KB (278,528 bytes)

PRAGMA integrity_check
ok

Latest Backup
No CAMS-managed backup exists yet.

Create Online Backup
Uses the SQLite backup API so active readers and writers can continue safely.

Optional label
Before semester rollover

Only ASCII letters and numbers are retained; other characters become separators. A UTC timestamp is always added.

Create and validate backup

Stage Restore
The selected managed backup is validated and copied beside the database. The live database is not replaced until a server restart.

Known backup
Select a managed backup

Type RESTORE to confirm

Restart CAMS after staging. Startup rechecks the SHA-256 hash, integrity, CAMS schema, WAL checkpoint, and safety backup before atomic replacement.

Validate and stage restore

Figure C.16: System audit trail

The screenshot displays the 'System & Exception Logs' page within the CAMS Admin application. The interface features a light green sidebar on the left with a navigation menu including Dashboard, People, Computers, Policies, Administrator Only (expanded), Admin Accounts, Roles, LAN Status, Deployment, Database, Reports, Audit Trail, and System Logs (highlighted). The main content area has a header with the title 'System & Exception Logs', a subtitle 'Server diagnostic trace, runtime exceptions, and warning logs', and an 'Export CSV' button. Below this is a section titled 'Exception & Diagnostic Events' with '0 Log Entries'. A table with columns 'Timestamp', 'Log Level', 'Error Message', and 'Stack Trace Snippet' is shown, containing the message 'No system exceptions or error logs captured.' At the bottom, it states 'Showing 0 of 0 system logs' with pagination controls.

Teacher Portal

The teacher works along a narrower path scoped to the classes they advise: open a laboratory session, watch the room on the monitoring wall, act on a workstation when a pupil needs it, and read back what happened afterwards.

The screenshot displays the 'Account Settings' page for a teacher named Maria Santos. The page features a left sidebar with navigation options: My Classroom, Laboratory Control, My Classes (expanded), My Class List, My Students, Class Restrictions, Records, Lab Utilization, Timeline, Browser History, Alerts, Settings (highlighted), Dashboard, People, and Computers. The main content area is titled 'Account Settings' with a subtitle 'Change the password for your signed-in teacher account'. A 'Change Password' form is centered, containing three input fields: 'Current Password', 'New Password' (with a note 'Use at least 8 characters.'), and 'Confirm New Password'. A 'Change Password' button is at the bottom of the form. In the top right corner, there is a user profile for Maria Santos (Instructor) and a 'Log out' button. A 'Student Profiles' link is also visible in the top right.
